

WEST PROMISES TO HELP CITIZENS

Commissioner Speaks at
Meeting of Northwest Sub-
urban Association.

That the Commissioners are giving and will continue to give their support to citizens' associations in their endeavors to secure needed and proper improvements in the District was the statement made by Commissioner Henry L. West, the guest of honor at the monthly meeting of the Citizens' Northwest Suburban Association in Masonic Hall, Tenleytown, last night.

Mr. West said he had watched with interest the action of the association regarding a proposed resolution relating to the building of a conduit over Rock Creek Park, between Massachusetts avenue and the Potomac river. The resolution expressed the dissatisfaction of the members of the association with the present condition of that part of Rock Creek valley, and by unanimous vote was finally amended so as to read in a less arbitrary manner and referred to the executive committee.

Upon motion of Louis P. Shoemaker the association adopted a resolution requesting the Secretary of the Treasury to indorse in their entirety the Commissioners' estimates for local improvements.

A resolution recently adopted by the East Washington Citizens' Association requesting the Commissioners to provide shelter for the outside dealers at local markets, was approved.

MOTORMAN LOSES ARM IN TROLLEY CRASH

Daniel Pearl, twenty-three years of age, a motorman on the Brookland car line, living at 34 Eckington place north-east, was caught between two cars about 8:10 this morning and his right arm was nearly torn from his body.

Pearl was attempting to put a fender on his car, was waiting on the switch at University place, Brookland, when a car from Washington struck the motionless car, pinning Pearl's right arm to the iron shoe in front.

He was hurried to Providence Hospital, where it was said that, while the accident was not necessarily serious, a surgical operation is imperative to prevent gangrene.

DOUBLE CELEBRATION AT HOWARD UNIVERSITY

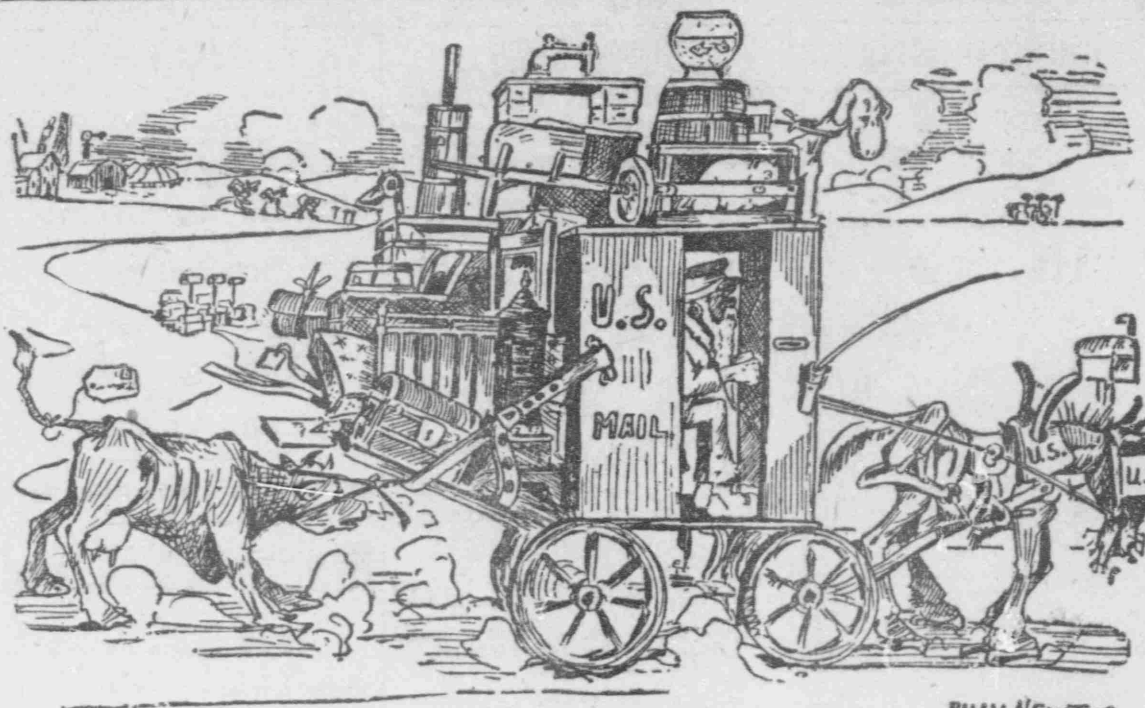

The fortieth anniversary of the founding of Howard University will be observed November 15 with imposing ceremonies. President Roosevelt is announced as the chief speaker. The anniversary will be celebrated in connection with the installation of the Rev. Wilbur Patterson Thirkield, D. D., LL. D., as president of the university, which is to be made an imposing ceremony in which faculty, student body, alumni, and distinguished invited guests, friends of the university and the higher education of the colored race will participate.

Among the distinguished speakers besides the President, there are announced to deliver addresses in Rankin Memorial Hall: James R. Garfield, Secretary of the Interior; James Bryce, British ambassador; the Rev. John W. E. Bowen, of Atlanta, and Dr. Thirkield. Justice Barnard, of the District Supreme Court, chairman of the board of trustees, will preside. The alumni will hold a reunion. The Rev. Cornelius H. Patton, of Boston, secretary of the board of foreign missions, will deliver the anniversary address. Well known educators, presidents of colleges and universities, will be among the speakers at the anniversary and installation services.

THE PARCELS POST OF THE FUTURE

BILLY NEWTON

—From the Minneapolis Tribune.

POLICE HUNT ROBBER; HELD UP MRS. HICKMAN

Detectives from the central office are looking for a negro who last night accosted Mrs. Mary Hickman, an employee of the Government Printing Office, living at 419 Second street north-east, and robbed her of a pocketbook. Mrs. Hickman was returning from the printer's shortly before 11 o'clock, and was directly in front of her home when a negro came up and asked the address of a person supposed to live on the street.

Before she had an opportunity to reply the man snatched her purse and disappeared around the corner. The pocketbook contained 19 cents and a latch key.

Mrs. Hickman told the police she would not be able to identify her assailant.

POTOMAC TRIP IS POPULAR WITH EXPOSITION VISITORS

Attendance at Jamestown is steadily increasing, doubtless because the splendid autumn weather makes sightseeing so enjoyable, the heat of summer having prevented many who visited the great exposition from exploring its many attractions perfectly.

Of the thousands who come from a distance, probably nine in ten include in their itinerary a sojourn at the National Capital, continuing their trip via the superbly appointed steamers of the Norfolk and Washington Steamboat Company, which maintain double daily service between the points named. For those who want to see the Potomac by daylight, there are steamers sailing at 8 a. m., while those so inclined can utilize the night service by leaving the city via the boats leaving at 8:30 p. m. Both land passengers directly at the exposition pier, a convenience appreciated because it saves time as well as journey expense. Daily connections are made at Norfolk with steamers for New York and Boston. Tickets and all information can be had at the wharf, foot of Seventh street, or at 705 Fourteenth street.

CORCORAN ART GALLERY OPENS.

P. B. McGuire, director of the Corcoran Art Gallery, announces that beginning tomorrow the gallery will be open to the public with no admission between the hours of 1:30 and 4 o'clock. This plan will be in effect until further notice.

MUST HAVE CHILDREN OR CAN'T BE TENANT

PITTSBURG, Nov. 2.—The sign of the stork will probably be placed on the new apartment houses erected by Henry Phipps in Allegheny. These apartments are about ready to open. The prices will be within the reach of the poorer people of the city, and one requisite is that all tenants must have children.

The hard and fast rule that obtains in some Eastern cities has been violated by Mr. Phipps, who requires that all persons renting of him must be the parents of at least one child. But the larger family the better. Newly-wedded couples will have to wait before they will be enrolled on Mr. Phipps' rent roll.

The flats, which consist of three and four rooms, with bath, will rent for from \$14 to \$18 per month.

LAFAYETTE ANTIQUITIES PRESENTED TO GOVERNMENT

Emile Cellerier, president of the International College of Heraldry, Paris, and his daughter, Louise France Cellerier, have presented the American Government with a collection of engravings and manuscripts relating to the family of the Marquis de Lafayette.

The presentation was made through Consul General Mason, the United States consular representative in Paris, and is intended as a memorial to Gabrielle France Cunningham, of New York, the deceased wife and mother of the donors. The relics will be placed either in the State Department library or in the Library of Congress.

OCEAN TO OCEAN CHASE ENDS IN MAN'S CAPTURE

PITTSBURG, Nov. 2.—After a chase extending from Mexico across the United States to Canada, back to New York, and finally into Pennsylvania, Detective S. C. Hodgins, of Oakland, Cal., captured Harry Evans at Dubois, Pa., two months to a day from the time the chase began.

Hodgins is here en route to California with Evans, who is charged with dragging a young man, then robbing him of \$500 worth of jewelry—family heirlooms.

METCALF ANNOUNCES ESTIMATES FOR NAVY

The naval estimates for the coming year, which have been previously forecasted in The Times, have just been made public by Secretary Metcalf. The increase over last year's estimates is about \$5,000,000 for the pay of the navy, due mainly to an increase in the number of enlisted men, \$3,000,000 for ordnance and ordnance stores, and \$9,000,000 for public works at the various navy yards and naval stations.

MAIL CONTRACTS SIGNED WITH LINES TO ANTILLES

The Postoffice authorities executed contracts yesterday with the American Mail and the New York and Cuba Mail Steamship Companies for the transportation of mails. The first company will carry mail between Boston, Philadelphia, and other United States ports and Jamaica. The New York and Cuba Company will carry mails between New York and Cuban ports.

Both companies will be required, under the mail subsidy act of 1881, to transport the mails in vessels the specifications for which will be approved by the Navy Department. These ships will all be classed as reserves of the regular navy.

The contracts will hold for ten years, dating from July 1, 1908.

SALVADOREAN LEGATION WILL BE MADE PERMANENT

President Figueroa, of Salvador, has decided to make the Salvadorean legation in Washington permanent because of the friendly spirit shown to the Central American republics by President Roosevelt and Secretary Root.

Until now Salvador had had no regular minister here, although her interests have been from time to time represented.

ICE CREAM HEARING BEFORE FOOD BOARD

Samples Have Been Analyzed and Reports
Turned Over.

Ice cream in the District of Columbia will be the subject of a hearing in the near future before the board of food and drug inspection of the Department of Agriculture.

The samples of ice cream that were collected by the District Health Officer last summer from many dealers in this city have been analyzed and the reports of the analyses have been turned over to the food and drug inspection board, which will give a hearing in the matter.

Whether the dealers concerned or any of them, who were reported by the Health Officer as dealing in ice cream below the standard set by the law, can be prosecuted by the District Attorney will be decided after the public hearing.

This hearing will be of especial interest in view of the fact that there has been some talk of the dealers raising the price of ice cream in Washington.

WAY TO TIE NECKWEAR; BEST COLLAR BUTTONS

There are many ways in which to tie a necktie, but there is only one way in which to tie it properly. The cravat or tie when used with a folded or turn down collar should be placed in the collar just far enough up to allow the cravat to show below the collar band. The cravat will then easily slip into place with very little pulling. Placing the cravat up into the fold of the collar is like putting it into a vise. It makes it impossible for the cravat to slide.

So say the makers of the Arrow Brand Collars, who are long experienced in the manufacture of collars. Their suggestions as to the kinds of collars to be worn, necessarily carries with it a few suggestions as to the style of the button to be used.

For the front, a button with a long, slender post, ball head and well rounded shoe should be used. The quarter-inch post gives plenty of room for the various thicknesses of the collar and collar band. The head permits the collar to be buttoned and unbuttoned without tearing out the buttonholes.

For the back, a button with an eighth-inch post and flat head should be used. The Arrow Brand Collar is adapted for the proper adjustment with any shaped shirt.

FIND BOGUS MONEY IN OLD TREE TRUNK

Chestnutters Rejoice But
Later Find the Money
Is Bad.

AMBLER, Pa., Nov. 2.—Two bags of glittering new counterfeit coins hidden in a hollow tree have upset the equilibrium of Grant Sawyer and Richard Boyd, of Hoopstown, the finders, and have excited the entire community and attracted thither the Government's Secret Service detectives.

Wednesday Boyd took a look around the wooded country surrounding Hoopstown and Fort Washington in search of chestnuts, and went to the Alexander Van Rensselaer estate. While he was looking for nuts under the trees, his eyes fell upon two newly minted 25-cent pieces. Boyd returned home and informed his fellow-workman, Grant Sawyer, and together they returned and made further search for money. They discovered a hollow place in one of the trees, and on examination saw two bags therein. It was but a few seconds' work to abstract the bags, and to their astonishment both bags were filled with coins. Eagerly they counted out the money and found that one bag contained \$9 in newly minted silver and the other \$9 in pennies.

The money seemed to be genuine, and the men had no hesitancy in spending portions of it; but now the detectives say it is counterfeit, and are getting very busy.

Today there was a report of another find of \$200.

DR. IRA LANDRITH TO ADDRESS Y. M. C. A.

At the Young Men's Christian Association tomorrow afternoon the Rev. Dr. Ira Landrith, LL. D., regent of Belmont College, Nashville, Tenn., will lecture on "Today, and the Manhood for It." Dr. Landrith is a very prominent educator, and has a national reputation as a speaker.

A "social singin'" with all the familiar hymns, will be conducted in the lobby of the Association building at 3 o'clock, and J. Walter Humphrey will render solos.

At 3:30, in the assembly room of the association, the second of the meetings for the older boys of the boys' department, will be held. Chaplain H. A. Brown, of Fort Myer, will address the meeting. His subject will be "Ships."
